Professional Summary

Motivated Front-End Web Developer with a strong foundation in React.js, skilled in building responsive and user-friendly web applications. Experienced in developing personal projects and a professional portfolio website, showcasing proficiency in modern JavaScript frameworks and UI/UX principles. Currently pursuing a Bachelor's degree in Computer Engineering at Homs University, eager to contribute technical expertise and creativity to a dynamic development team.

Project

1. **Personal Portfolio Website**
   - Designed and developed a responsive portfolio website to showcase personal projects and technical skills.
   - Utilized React.js for dynamic content rendering, and CSS .
   - Enhanced visual appeal with smooth animations and transitions using GSAP.
   - On github: https://github.com/MohammadBohlak/myPortfolio.git
   - Live Demo: https://my-portfolio-seven-woad-42.vercel.app/

2. **Customer Relationship Management (CRM) System**
   - Developed a simple web-based CRM system to enable administrators to manage customer data and streamline client interactions.
   - Utilized React.js for dynamic UI components, React-Bootstrap for responsive layouts, and Styled-Components for custom styling.
   - On github: https://github.com/MohammadBohlak/crm-react.git
   - Live Demo: https://crm-react-three.vercel.app/

3. **Al-Ain Modern Establishment Website**
   - Built a professional website for Al-Ain Modern Establishment, a construction company, to showcase their services and projects.
   - Leveraged React.js for component-based development, React-Bootstrap for responsive design, and Styled-Components for tailored styling.
   - On github: https://github.com/MohammadBohlak/al-ain-react.git

- Live Demo: https://al-ain-project.vercel.app/

4. Interactive Educational Platform Design

- Created a front-end design for an interactive educational platform, focusing on user-friendly navigation and engaging UI.
- Built using React.js for component-based structure, React-Bootstrap for responsive design, and Styled-Components for custom styling.
- On github: https://github.com/MohammadBohlak/EDU-Quest.git
- Live Demo: https://edu-quest-lemon.vercel.app/
