Professional Summary

Junior Front-End Developer specializing in React.js, bilingual UI design, theme customization, API integration, state management, and routing for dynamic page navigation. Quick learner with a strong ability to adapt and grow in fast-paced environments. Additional projects and advanced UI experiments are available in my portfolio and GitHub, beyond those listed here.

Projects

1- Personal Portfolio Website | Front-End Developer

- Designed and developed a responsive portfolio website to showcase personal projects and technical skills .
- Enhanced visual appeal with smooth animations and transitions using GSAP .
- **Technologies:** React.js, GSAP, CSS, styled-components .
- **On github :** https://github.com/MohammadBohlak/myPortfolio
- **Live Demo:** https://my-portfolio-seven-woad-42.vercel.app/

2- Toxi-QR | Front-End Developer

- Built a multi-page AI-powered web application that allows users to upload snake images and receive instant analysis on venomous status using machine learning. The system also connects users with real experts for confirmation and guidance. Includes educational content and real-time communication features.
- **Technologies:** React.js, react-bootstrap, bootstrap, axios.js, styled-components, swiper.js .
- **On github :** https://github.com/MohammadBohlak/toxi-qr.git
- **Live Demo:** https://toxi-qr.vercel.app/

3- Interactive Educational Platform Design | Front-End Developer

- Created a front-end design for an interactive educational platform, focusing on user-friendly navigation and engaging UI.
- **Technologies:** React.js, react-bootstrap, bootstrap, styled-components, swiper.js .
- **On github :** https://github.com/MohammadBohlak/EDU-Quest
- **Live Demo:** https://edu-quest-lemon.vercel.app/

4- Customer Relationship Management (CRM) System | Front-End Developer

- Developed a simple web-based CRM system to enable administrators to manage customer data and streamline client interactions .
- **Technologies:** React.js, react-bootstrap, bootstrap, axios.js, styled-components .
- **On github :** https://github.com/MohammadBohlak/crm-react.git
- **Live Demo:** https://crm-react-three.vercel.app/

5- Al-Ekhwan Construction Website | Front-End Developer

- Designed and built a responsive multi-section website for Al-Ekhwan Construction to present their services, portfolio, and contact info. The site includes a clean UI, smooth navigation, and subtle animations to enhance user experience and engagement .
- **Technologies:** React.js, axios.js, framer-motion, styled-components .
- **On github :** https://github.com/MohammadBohlak/al-ekhwan.git
- **Live Demo:** https://al-ekhwan.vercel.app/
